- Started an education program of imaging seminars for artists
- Beta tester for Adobe Photoshop
- Experience scanning to match artwork for over 100 artist web sites
- Writes for Shutterbug Magazine
- Wrote about the Smithsonian Craft Show Jury System for Juried Art Services

### Testimonials

- “Hi Larry. You did it once again. We opened our ZAPP profile and said WOW! The pieces are so true and they really popped and grabbed our attention. The quality of the work along with your quick and friendly service makes you a very valuable person! Thank you so much for your fine work and information, I can't imagine wandering through this sea of technology without your expertise. Rick and I really appreciate it.” *Marian Steen*
- “They look GREAT! Thanks, Nice job of editing. Larry is not just ahead of the curve in the art fair world, Larry is defining the curve. He offered me just what I need, a state-of-the-art jury portfolio, uploaded and ready to use. I don't have to wait until I can do it for myself. Larry already gives me the option of having great digital images to jury with while I am trying to learn this confusing world for myself. But I'm never going to enjoy the tech world like I enjoy getting my hands in clay. Larry keeps my hands in clay.” *John Bauman*
- “Dear Larry. You have been one of the best gifts I've ever given my business. Show decisions aren't all in as you know, but I feel more a part of this new millennium as a professional because of your services; better prepared for jurying than ever before. You are helping me make my dreams come true.” *Linda Van Hart*
